The MHA Plus SIG members website, hosted by measure2improve, was launched in February 2022 to replace the old MSIG website. Since the launch, we now have almost 400 active website users.

The SIG members site is available to all local authority MHA Plus members and provides access to information on SIG meetings (agendas, minutes,

presentations etc.), a document library, comparative/benchmarking data and online discussion boards.

SIG members can post questions on the online discussion board, tagged with the relevant SIG or SIGs. Notification emails are sent to all members of the relevant SIG following a new post to encourage members to engage and provide feedback/advice.

Benchmarking Reports

There is a library of all the most up to date benchmarking exercises carried out by SIGs as well as a library other documents which can be searched on by SIG.

List Of All Benchmarking Library Items

Title (Click to go to Library Item)	Description	Related SIG
Winter Services Comparative Data 2021	Comparative data from MHA Plus Authorities relating to winter service provision; including forecasting service providers, grit storage and spread rates, gritter fleets, network statistics and staffing.	Winter Services
