Annex A: Tender evaluation

Marking of the Mini Competition Quality Score (QS)

If the Tender scores from the framework quotation information are to be used then the scores for Quality, will be as per the tender and no further assessment is required.

Waterman Aspen = (TQ)	Matchtech = (TQ)
-----------------------	------------------

If a blend is to be used the calculation shall be as follows:

Tender quality score (TQ) x percentage relevant = Tender quality mini competition factor (A)

Mini competition quality score (MCQS) x percentage relevant = Mini competition quality factor (B)

Total overall mini competition quality score (QS) = (A) + (B)

The mini competition score shall be calculated as follows:

The total scores for all the questions will be added together. The tenderer with the highest total quality score will be awarded a score of 50. The other total quality score will be adjusted on a pro-rata basis using the formula $50 \times Q/HQ$ (where HQ is the highest quality score, and Q is the quality score being considered). This will become the mini competition quality score (MCQS).

The mini competition quality questions and marking system are included in Annex B: Quality.

Marking of the Price score

If the Tender scores from the framework quotation information are to be used then the scores for Price, will be as per the tender and no further assessment is required.

Waterman Aspen = (TQ)	Matchtech = (TQ)
-----------------------	------------------

If a blend is to be used the calculation shall be as follows:

Tender price score (TQ) x percentage relevant = Tender price mini competition factor (C)

Mini competition quality score (MCPS) x percentage relevant = Mini competition price factor (D)

Total overall mini competition quality score (PS) = (C) + (D)

The mini competition score shall be calculated as follows:

The tenderer with the lowest tendered price will receive a score of 50 marks. The other tendered price will be scored on a pro-rata basis using the formula $100 \times TL/T$ (where TL is the lowest tendered price, and T is the tendered price being considered). This will become the price score.

The pricing requirements will be detailed in Annex C: Contract Data

Annex B: Quality

<i>Client</i> to add IR35 Assessment here
<i>Client</i> to also add the Status Determination Statement (SDS) here if required
<i>Client</i> to add Job Description here
<i>Client</i> to add any specific quality questions here
<i>Client</i> to add the mechanism for marking the quality responses

Annex C: Contract Data

<i>Client</i> to add relevant PSSC Contract Data Parts 1 and 2

Annex D: Form of Tender
